Topic: Environment setup + image-to-ASCII + face detection crop

Implemented items

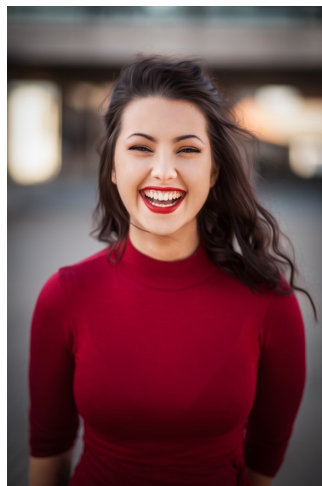

- Initialized Python virtual environment (.venv).
- Built URL-based image to ASCII converter in `ascii_beauty.py`.
- Added automatic face detection and face-centered cropping (OpenCV Haar cascade).
- Kept optional no-crop mode (`--disable-face-crop`).
- Default image URL:

<https://images.unsplash.com/photo-1494790108377-be9c29b29330?auto=format&fit=crop&w=640&q=80>

How to run

```
$ source .venv/bin/activate
$ pip install -r requirements.txt
$ python ascii_beauty.py --width 70
$ python ascii_beauty.py --width 70 --disable-face-crop
```

Default source image preview

ASCII preview (first lines)
